MODULUS SYSTEM

Table size guide

Boardroom Tables

Fits almost all
power boxes

The Modulus system has a timeless simplicity with one universal leg style that supports many table designs. The distinctive A-shaped rail and socket system securely locks the table together & gives immense strength.

Flip Tables

Shifting between learning modes can be expensive and time consuming with traditional static furniture. Flip tables are easily reconfigured allowing for flexible working areas, training zones or presentation rooms. Extra fast to install these tables come in a range of sizes with optional privacy modesty panels.

Shaped Tables Education

- Benefits of collaborative learning
- 1-Positive interdependence
 - 2-Encourages face to face interaction
 - 3-Teaches individual accountability
 - 4-Develops social skills
 - 5-Cultivates group processing

Shaped Tables Teleconference

Table shape as shown

Modulus Teleconference Tables are specifically designed to support virtual collaboration. Half-round and trapezoid shapes create focus on communication tools and encourage group engagement. These tables make interaction comfortable!

High Tables

- 86% of Americans remain sedentary for 21hr/day
- Encourage standing areas to avoid problems with high blood pressure, reduced metabolism and weaker muscles.
 - Standing meetings and workspaces have been proven to improve workflow, increase focus and raise productivity.

With frames to support a variety of work top sizes and an unobtrusive foot design, Modulus High Tables provide an excellent, impromptu place for workers to gather. They're ideal for quick meetings, reviewing documents, or simply catching up. Workers rarely have time to sit for extended meetings during their time in the office, so touchdown spaces can help provide more supportive options.

Desking

Modulus Desking offers contemporary styling, in a clean, simple aesthetic. The best office environments are those that create a sense of community & space and support dynamic changes in workplace technologies and evolving work practices. And best of all, it integrates visually with all Modulus Meeting Tables.

Cafeteria Tables

Versatile enough to be used almost anywhere, Modulus Meeting Tables complement any space with a variety of top sizes, base formats and a refined aesthetic. From dining tables in social areas to coffee tables or standing-height occasional tables for more informal settings, Modulus Meeting Tables offer flexibility, enabling any activity that requires an inviting surface.
